

## JZ-MSDB

# Molecular Sieve Packs

### Description :

Molecular sieve packs is a kind of synthetic desiccant product with strong adsorption for water molecules, crystalline aluminosilicate compound. Its crystal structure has regular and uniform pores, the pore size is the order of magnitude of molecular size, which can continuously absorb water under low humidity.

### Application:

Cameras and sensitive materials, precision instruments, electrical appliances, food, medicine, shoes, clothing, leather, weapons, telecommunications equipment, etc.

### Specification :

Type	Package Materials	Quantity ( gram )	Dimension (mm)
JZ-MSDB20	non-woven fabric	20	194*20
JZ-MSDB50	Tyvek	50	200*30
JZ-MSDB250	non-woven fabric	250	115*185
JZ-MSDB500	non-woven fabric	500	150*210
JZ-MSDB1000	non-woven fabric	1000	150*280

### Attention :

The product as desiccant cannot be exposed in the open air and should be stored in dry condition with air-proof package.

### Remarks:

- 1- Both Package Materials, Quantity & Dimension can be customermized.
- 2- Vacuum packing if necessary.
